

City of Marengo Floodplain Development Application/Permit

Property Located in zone AH?

Yes

No

This permit is for Zone AH issued with the condition that the lowest floor (including basement) of any new or substantially improved residential building will be elevated at least the 100 year (base) flood elevation. If the proposed development is a non-residential building, this permit is issued with the condition that the lowest floor (including basement) of a new or substantially improved non-residential building will be elevated or flood proofed to the 100 year (base) flood elevation.

In addition, the City of Marengo's Engineer recommends but does not require any new or substantially improved structure, residential or non-residential, be at least 2.0 feet above the 100

Property Located in zone A or AE?

Yes

This permit is issued for Zone A or AE with the condition that the lowest floor (including basement) of any new or substantially improved residential building will be elevated at least 1.0 foot above the 100 year (base) flood elevation. If the proposed development is a non-residential building, this permit is issued with the condition that the lowest floor (including basement) of a new or substantially improved non-residential building will be elevated or flood proofed to at least 1.0 foot above the 100 year (base) flood elevation.

In addition, the City of Marengo's Engineer recommends but does not require any new or substantially improved structure, residential or non-residential, be at least 2.0 feet above the 100 year (base) flood elevation.

Certification by Iowa Licensed professional engineer, architect, or surveyor:
